In the second quarter of 2022, our team planted 144 new churches among the unreached, reaching a total of 308 churches in 2022 and a cumulative total of 3,208 churches planted to date. If the trend we have seen in the first two quarters of 2022 continues, we can project our church planting efforts returning to a similar pace to what we had before the global pandemic slowed us down, as demonstrated in the graphic below. We are honored to have front seats as we witness Jesus building His Church among peoples with limited access to the Good News!
