

In the last edition of the Lower the Percentage we celebrated the completion of Mission Impact. By God’s grace we saw 6,000 churches planted among the unreached! As we turn our attention to our new ministry phase, Mission Multiply, we want to celebrate how God is already using our team to provide gospel access.

BAPTISM

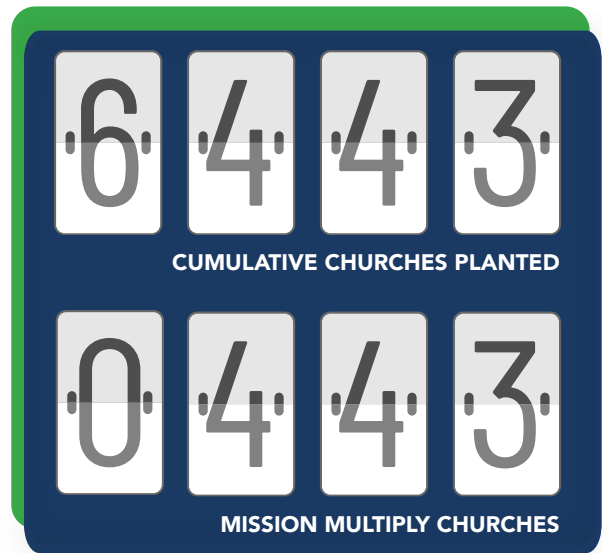

Imagine you are a new believer in a country that discourages or forbids Christianity. Taking the steps of baptism can be dangerous. While this is a reality in many of the areas where Crossover Global plants churches, **854** people have been baptized this year through Mission Multiply. Over the last five and a half years we have seen a total of **20,536** people baptized. People from Hindu, Buddhist, Muslim, and Animist backgrounds are taking the bold step of making their faith in Jesus public through their obedience in baptism.
